75 TEACHERS ATTEND PSEA FALL BANQUET

About 75 teachers and their guests attended the annual fall banquet of the Adams County Chapter of the Pennsylvania State Education Association Thursday evening despite the snow storm.

Eero W. Davidson, coordinator of regional instructional materials centers for the Pennsylvania Department of Instruction, was the speaker at the dinner meeting held in the Bermudian Springs High School cafeteria.

Davidson told the teachers, "There is fun in teaching," recalling incidents from his teaching experience to illustrate his talk. He noted that some teachers experience "frustration and exhaustion through their personal drive to make a child learn a certain type of material by a particular method." He suggested that these teachers need to re-evaluate their approach to the learning situation.

KORVER PRESIDES

Both teacher and child should be learning together, he said, noting that he had learned much from his pupils. "Fortunately I learned this lesson early while I still had an opportunity to do some good by it."

Mrs. Emilie Eshleman, president of the Bermudian Springs Education Association, and High School Principal Alfred R. Billett welcomed the teachers and guests. Mrs. Eshleman had charge of local arrangements.

Mrs. Paul Bubb, high school cafeteria manager, and Miss Mildred Christman, home economics teacher at the school, were recognized for their work in preparing the meal and the table decorations.

John R. Korver, president of the county association, presided at the meeting. He reviewed some of the decisions that face all who are interested in education and said teachers must always be ready to participate in the decision-making as they are most intimately involved in the process of instruction.

36 Miners Are Trapped 650 Feet Underground In Blast That Shattered Robena Pit

By BEN DEFOREST

CARMICHAELS, Pa. (AP) — Rescue crews were within less than 4,000 feet today of 36 men trapped deep underground by a mine blast. There has been no contact with them since the explosion at 1:15 p.m. Thursday in the Robena No. 3 mine of U.S. Steel Corp.

Lewis Evans, Pennsylvania secretary of mines, described the situation as "desperate," but held out hope the miners may be alive. "We hope the men built barricades to stop the flow of gas," he said.

Forty-four others working in another section of the pit walked out unhurt. Some returned to search for their colleagues who are 650 feet underground.

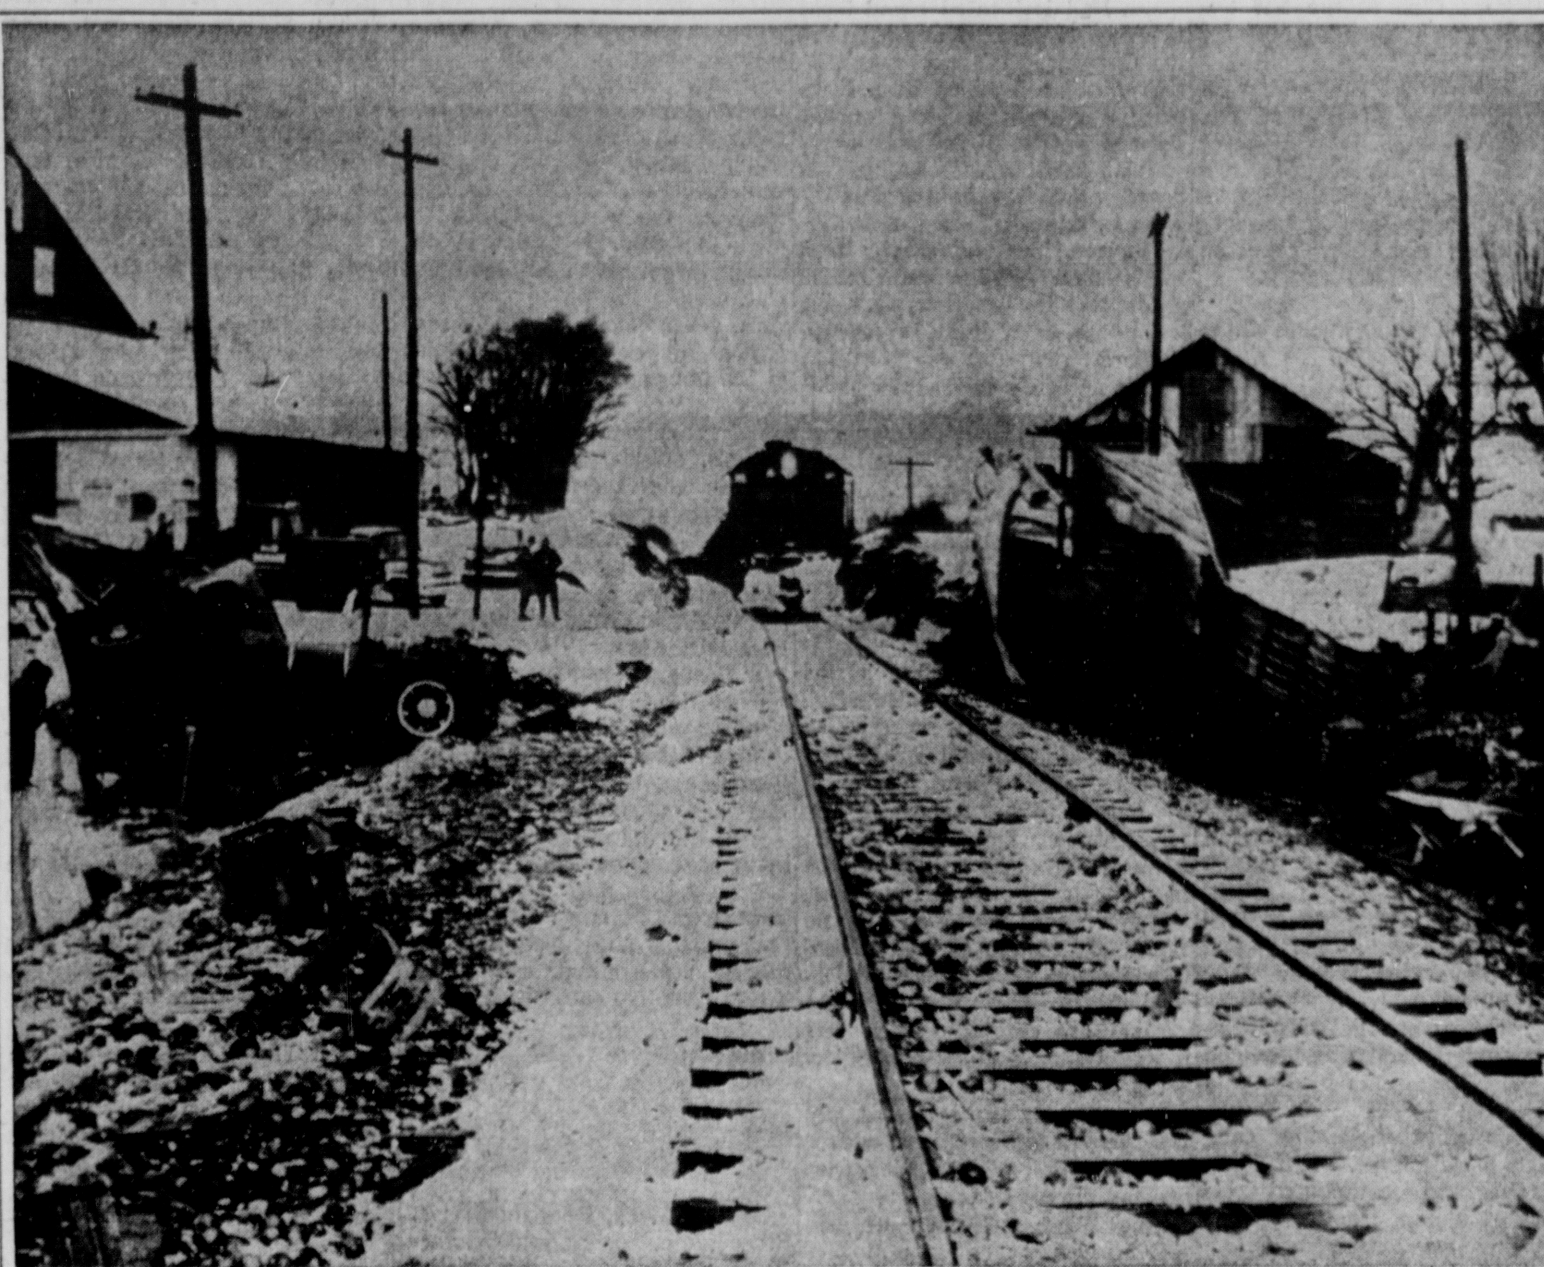

FEAR NEW BLAST

Slowed by deadly gas and tons of rubble that left shorings hanging like burnt matches, the rescue crews proceeded cautiously in the tunnel—its concrete walls buckled by the blast.

Drifting Snow Has Plows At Work

Drifting snow in the Littlestown and Wensville sections, where the depth of Thursday's snowfall was placed at about six inches, kept state highway department snow plows busy into this afternoon.

Some of the plows worked throughout the night to keep roads open in the face of strong west winds. One secondary road in the New Oxford area was reported closed for about an hour this morning by drifts.

Gettysburg, Fairfield and New Oxford schools sent their pupils home early Thursday afternoon, but all schools were reported in session today.

Death, as it does to all men, finally came to Sam Spangler. He breathed his last Thursday morning in the Annie M. Warner hospital to which he had been taken 14 hours earlier. Until almost the last he resisted the inroad of time upon his health and his energy. It was only in recent years that he curtailed a vigorous daily routine.

Sam, as he was affectionately known to countless hundreds of men and women in all walks of life, lived a commendable life of devotion to his wife and family, his church, his friends and his businesses and their associates. He was honest and loyal in all his dealings . . . his word was as good as his bond . . . and his bond was always acceptable. He was a hard worker and devoted generously of his time to many endeavors.

He was the first and only president the Times and News Publishing Company ever had, serving in that capacity for almost 40 years.

There was nothing flamboyant or pretentious about Sam Spangler. He was a plain, solid citizen . . . as wearable and lovable as an old shoe. One always knew how Sam felt about top issues of the day and regardless of how others felt about religious or civic affairs Sam respected their convictions. He liked his association and

106 Lose Lives In Worst London Smog In 10 Years

By HAL R. COOPER

LONDON (AP) — The worst smog in a decade loosened its lethal four-day grip on London today, leaving 106 known dead and more than 1,000 in hospitals.

Dense patches persisted in parts of the British capital, but in most places the sun finally seeped wanly through a thin blue haze in mid-morning.

"London is like an oasis, completely ringed by a slowly clearing fog belt," said a spokesman for the British Automobile Association.

Visibility rose to 150 yards at London Airport, and weathermen said it should increase to an operational 2,000 yards later. At midday, not one civil aircraft had been able to get in or out of the airport in 88 hours.

170 SHIPS STALLED

Still fogbound in the Thames Estuary, downriver from London, were more than 170 ships, many carrying Christmas foodstuffs badly needed in the nation's shops.

Commuter trains into London

were up to 20 minutes late during the early morning rush hour. Main line trains on longer hauls ran up to 3½ hours behind schedule.

Heavy fog still was reported in the eastern counties of Norfolk and Suffolk, with visibility on the roads averaging 25 yards. Ice on highways in many areas also made driving hazardous.

HAZY SUNSHINE

Hazy sunshine was forecast in most parts of the British Isles until nightfall. The prediction was that frost and fog would return during the night in patches in the southeastern part of the country.

Mild, cloudy weather, with some rain or drizzle, is expected to set in Saturday.

SCHEDULES IN CHAOS

The smog settled in Monday night and eased once for a few hours Thursday. But Thursday night London groaned to a standstill.

(Continued On Page 10)

A Biglerville man was injured and damage exceeded \$45,000 at 3 o'clock this morning when a Western Maryland locomotive sliced through a tractor-trailer laden with 750 bushels of apples at the railroad crossing on Twp. Rt. 348 at the Victor Woerner farm about a mile west of here and north of the Lincoln Highway.

Robert Larue Brown, 33, S. Main St., Biglerville, driver of the rig, suffered lacerations of the face and chin, contusions and a fractured jaw when the train cut through the tractor-trailer and hurled the two parts about 75 feet east of the township route along the railroad tracks.

The apples were splattered along the railroad tracks, beside the tracks and as far as the Woerner front yard.

DRIVER HELPED OUT

Victor Woerner and other members of his family assisted in removing Brown from the badly smashed cab of the tractor. When the tractor came to rest south of the tracks, the rear wheels were on the ground while the cab was on its side. The trailer, ripped and torn into a heap of twisted metal, was on the north side of the tracks.

State police said Brown, driving a tractor-trailer owned by Mineral Transportation, Inc., Gettysburg R. 6, headed by Garnet Newton, Biglerville R. D., was traveling south toward the Lincoln Highway when the eastbound train struck the vehicle at about its center.

Damage to the tractor-trailer was estimated at \$15,000, not counting the 750 bushels of apples.

\$30,000 TRAIN DAMAGE

The diesel engine of the freight train and the caboose was badly damaged. Another train car was less badly damaged. Police and railway men estimated the damage to the train at about \$30,000.

HEAR DETAILS OF MERGER OF COUNTY UNITS

Further details of preliminary plans to combine Child Welfare and Aid to Dependent Children under "Family Care" were outlined Thursday evening at a meeting of the advisory board of the Adams County Child Welfare Services at the courthouse.

Miss Mary Curtis, child welfare director, outlined information she and Visitor James Lesher learned Thursday at a meeting of the Pennsylvania Citizens Council at Harrisburg.

There speakers gave details of the study made by the Fels Institute of the University of Pennsylvania for the state Department of Welfare in which it was recommended that child welfare and the aid to dependent children program of public assistance be combined into a "Family Care" program.

Child welfare and public assistance are combined at the state level but not on the local level, according to the speakers. Miss Curtis said that no details were given as to how soon the new program may go into effect.

Miss Curtis reported there are 92 children under child welfare, 74 under direct supervision and 18 under indirect supervision. The children are from 43 families.

A number of Christmas presents for children under child welfare care were turned in at Thursday night's meeting. It was asked that all of the gifts for the youngsters be brought to the child welfare office by December 10.

REDS CANCEL OFFER MADE AT GENEVA TALKS

By MICHAEL GOLDSMITH
GENEVA (AP)—The Soviet Union today publicly offered — and then backed off from — a proposal to allow international inspectors to check on robot seismographs placed inside Russia for policing a nuclear test ban.
The Soviet maneuver over the unmanned detectors — known as black boxes — came at the conclusion of the morning session of the 17-nation disarmament conference.
U.S. Ambassador Arthur H. Dean said whatever the Russians had in mind they would never talk the Western powers out of their demand for on-site inspections of suspicious earth tremors.
The surprising Soviet offer came at a news conference by the official Soviet delegation spokesman, Alexei Roschin. He said Soviet Delegate Semyon K. Tsarapkin had formally made the proposal during the morning's closed session.
Two hours later, Roschin told newsmen he had made a mistake and Tsarapkin had not read that particular passage during his conference speech.
The reasons for the Soviet change of attitude were not immediately clear. Some sources said it looked like backhanded way of introducing a new line of thought into the test ban deadlock without making a formal proposal.

SNOW CLOSES PA. TURNPIKE

HARRISBURG (AP)—The Pennsylvania Turnpike between the Bedford and Irvin Interchanges on the western leg of the toll road was closed to new traffic at 9 a.m. today, the Turnpike Commission reported.
A turnpike spokesman said the 78-mile section was closed because of "high winds and drifting snow."
He said traffic already on the turnpike before the closing order is moving slowly. There is no imminent danger of motorists being stranded in large numbers on the toll road, he emphasized.
The spokesman said turnpike state police have been patrolling the section looking for stranded motorists, but nothing of "any consequence" developed.
"We have removed some motorists from stalled vehicles over the last two days," he said, "but no casualties have been reported."
The move came, the spokesman said, after it was apparent the storm conditions were not going to let up for a while.

FIRE DESTROYS MILL HALL ROW

LOCK HAVEN, Pa. (AP)—Fire leveled five row houses in the nearby community of Mill Hall today, driving five families with 15 children into subfreezing cold. There was no loss of life.
Fire company officials said the occupants of the frame structures escaped with only the clothing they wore. None of their belongings or house-old goods were saved.
Mill Hall is located about three miles west of Lock Haven in Clinton County.

Four other families in a three-story apartment building on the same side of the street were evacuated. They also lost heavily from property damage when that building was damaged by the fire.
Firemen, handicapped by high winds and low water pressure as a result of the weather, kept the fire from spreading to another five-house row of dwellings on the other side of the apartment building.

The fire broke out about 5 a.m. and spread quickly. Officials said it may have started from a heater in one of the row houses.

Deer Mangled By Truck Today

A badly-crushed and mangled deer carcass was discovered about 7 o'clock this morning on the west side of the Littlestown highway, near the driveway of the Leonard Shealer property, by Mrs. Shealer. She reported that it was removed by a highway department truck a short time later.
State police had received no report of damage to the unidentified vehicle that struck the animal, but persons who saw the carcass are of the opinion that it was hit by a truck headed towards Littlestown.

Mrs. Shealer said the animal was lying at the same spot a deer was struck and killed about a year ago.
Game Warden Homer Thrush, said he had not been notified of the incident and presumed that it was disposed of immediately by the highway department.

John Thornhill, trading as John Thornhill Plant Co., Tifton, Ga., is seeking \$9,000 which he claims Roger Smith, York Springs, owes him for more than 3,000,000 to-mato, cabbage and pepper plants bought in 1960.
According to the action in assumpsit filed for Thornhill in the prothonotary's office by Attorney Eugene R. Hartman, Rogers received some of the plants at York Springs, some were sent to Cottage Inn Co., Hampshire, Ill., at Smith's direction. The complaint lists \$9,000 as still owing on the plants, lists credits for payment of \$2,000 and \$836.56 as an "allowance for seed."

Twenty members and two guests attended a meeting of the United Lutheran Church Women of St. Paul's Lutheran Church, Biglerville, held Wednesday evening at the church. The topic, "Peace — Our Responsibility," was presented by Mrs. H. W. Sternat. During the discussion by the group, portions of the scripture were read. An evergreen tree was decorated with the words, "Peace, Love, Giving, Service, Sharing, Neighborliness, Forgiveness, Kindness, Cheer, Courage, Truth, Faith, Humility, Generosity, Sacrifice, Understanding, Friendliness, Loyalty, Trust, Patience, Courtesy, Commendation, Prayer, Honesty and Sincerity," which describe some of the characteristics we need to promote peace in the world today. It was concluded that, despite the newspaper headlines, never before was there such a yearning for peace. Dedication of the offerings with prayer was given by Mrs. C. L. Yost.

The retiring president, Mrs. M. Francis Coulson, presided over the short business meeting. Christmas greetings were read from the George Walborn family, missionaries of Tandil, Argentina. Subscriptions are being received for the "Lutheran Women" and "The Foreign Missionary" by Mrs. Coulson. Deadline for renewal is December 15. The new president, Mrs. Kenneth Lawver, invited all women of the congregation to the first District Assembly of Lutheran Church Women being held at St. James Lutheran Church, Gettysburg, on January 8 at 7:30 p.m. Transportation will be provided with cars leaving St. Paul's Church at 7 p.m. Following the meeting, refreshments were served by the executive committee.

JFK, ADLAI SWAP WARM GREETINGS

By HARRY KELLY
WASHINGTON (AP) — Adlai Stevenson and President Kennedy, meeting in public for the first time since the tempest over the U.N. ambassador's role in the Cuban crisis, shook hands warmly Thursday night.

Stevenson, quick as ever with a quip, introduced Kennedy as "the author, producer, director and star of Mr. Khrushchev's new hit play in Moscow—'A Funny Thing Happened to Me on My Way to Cuba.'"

Stevenson said he was "proud to be a member of the supporting cast."

AT AWARDS DINNER

The occasion of their meeting was the Kennedy Foundation awards dinner where the President handed checks to four foreign scientists for work against mental retardation.

In the background were echoes of the clamor set off this week by a magazine article—co-authored by a close friend of the President—which portrayed Stevenson as having advocated a soft line in the Cuban crisis.

The article set off speculation that someone in the administration was "out to get Adlai." Apparently in an effort to still the talk, the President made public a letter Wednesday expressing his "fullest confidence" in Stevenson.

STANDING OVATION

Thursday night, presiding at the dinner, Stevenson received a standing ovation.

Stevenson remarked that the United Nations may soon be crying for peace "and I have been crying for it in the past week."

"But despite what has happened," Stevenson added, "I am convinced that most of the press of this country follows Joseph Pulitzer's remark that accuracy is to a newspaper what virtue is to a man."

to a woman—except, as someone has pointed out, a newspaper can always print a retraction."

HAD DENIED STORY

Stevenson previously had denounced the Saturday Evening Post article as inaccurate and a gross misrepresentation of his position.

The story, written by Washington newsmen Stewart Alsop and Charles Bartlett, a close Kennedy friend, quoted anonymous but apparently high ranking officials as saying Stevenson dissented from Kennedy's decision to set up a naval blockade around Cuba and advocated a diplomatic approach. In his talk Thursday night, Kennedy made no mention of the Cuban crisis.

Does your family enjoy cheese? Treat them occasionally to a kind they haven't yet tasted. Here are a few suggestions: Gjetost, of Norwegian origin, has a sweet caramel-like flavor; Mozzarella, of Italian origin, is wonderfully mild and delicate in flavor; Roquefort, from France, owes its distinctive flavor to sheep's milk.

Members of the Gettysburg College Choir which will present two Christmas concerts here Saturday and Sunday are shown with their director, Prof. Parker B. Wagnild. They are, from the left:

First row: Carolyn Musselman, Gettysburg; Barbara Metzner, Camp Hill; Nancy Taylor, Pittsburgh; Ruth Ann Akers, Huntingdon Valley; Mary Lou Miller, New Cumberland; Nancy Dilcher, Pottsville; Clare Bradford, Easton; Eloise Gouker, Philadelphia; Linda Shuman, Mechanicsburg; Virginia Elting, Silver Spring, Md.; Jessie Herrisberger, Philadelphia.

Second row: Barbara Aitchison, Silver Spring, Md.; Judy Singer, Bloomsburg; Carol Richard, Pottstown; Kathy Emig, York; Susan Stoehle, Scotch Plains, N. J.; Eleanor Beebe, Trenton, N. J.; Joan Myers, Westmont, N. J.; Susan Paulson, Glen Rock, N. J.; Mary Lou Rogers, Greenville; Cynthia Rosenberger, Gettysburg; Sherry Jackson, Westfield, N. J.; Joanne Thomas, Baltimore.

Third row: Muriel Pickel, Elizabeth, N. J.; Donna Smith, Sarver; Joann Leeder, North Brunswick, N. J.; Janet Filing, Wayne; Ellen Rice, The Hague, Netherlands; Dianne Anderson, Washington, D. C.; Margaret VonThun, Dayton, N. J.; Sue Condon, Yardley; Suzanne Scheuer, Scranton; Bette Kelbe, Egg Harbor City, N. J.; Ethel Crouse, Haddonfield, N. J.

Fourth row: Bruce Stiles, Blackwood, N. J.; Gerry Lambrecht, Waterville, N. Y.; Gary Hammond, Short Hills, N. J.; William Benner, Glen Mills; Paul Deitz, Gettysburg; John Harkins, Wyckoff, N. J.; Lane Daylor, Pottstown; Arthur Strock, Fanwood, N. J.; Louis Beeckoff, Collingswood, N. J.

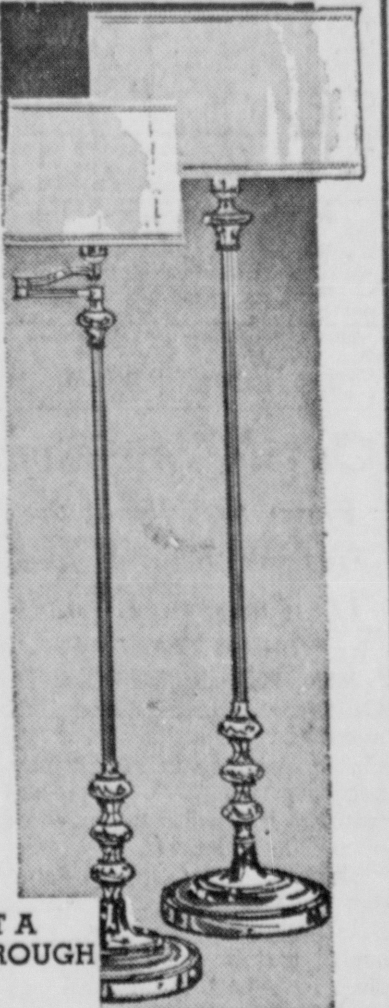

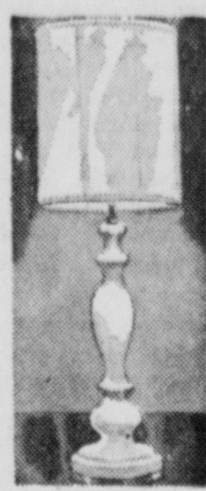

Fifth row: William Horne, Norristown; Tom Wenger, Quentiny; Larry Reimer, River Edge, N. J.; John Nagle, Holmes; Paul Cullen, McLean, Va.; Dave Thomson, Basking Ridge, N. J.; Richard Vandervoort, Ridgewood, N. J.; David Johnson, Gettysburg; Donald Skekel, Monessen.

Sixth row: John Reis, Garden City, N. Y.; James Buffenmyer, Newport; James Smith, Shippensburg; Ted Wachhaus, Harrisburg; James Myers, Baltimore; Paul Tecklenberg, Baltimore; John Pawalek, Baltimore; James Hoke, Pottsville.

Frying onion rings? Add some green pepper rings! Prepare the green pepper and onion the same way: Dip in seasoned flour, then in milk; drain slightly, dip in the seasoned flour once more and fry in deep fat that's been heated to 375 degrees.

Cheese sauce is delicious with so many vegetables: Broccoli, cauliflower, snap beans and celery. Although cheddar cheese is usually added to a white sauce to make the cheese combination, you can add grated Parmesan cheese for a flavor change.

Bullets Rip Dickinson For Easy 79-44 Victory; Frosh Win Prelim 85-72

Gettysburg College opened fire with six minutes gone by in the first half and went on to smash Dickinson 79-44 Thursday night before a small crowd of 800 fans in the physical education building.

The win marked the second in three starts for Bob Hulton's cagers. Dickinson is 1-1 on the season. The Bullets will have to be at their very best Wednesday afternoon when both the varsity and freshmen teams tangle with the respective U.S. Naval Academy squads in Annapolis, Md.

Both squads matched shots during the first five and half minutes of the ball game before Ted Koerner snapped things open with a pair of goals and a free throw and Doug Kepner added a tap-in while George Strouse sank a charity toss to push the Bullets to a 19-9 lead with 8:58 gone by in the contest.

The Red Devils made desperate attempts to get something started, but by the time intermission rolled around there was no doubt as to the outcome. The Bullets led then 45-24.

Coach Bob Hulton utilized his bench strength through most of the second half. The reserves turned in a fine job while gaining a little more experience and polish.

Sophomore George Strouse once again paced the Bullet attack with 20 counters while Roger Gaekler netted 18 and Koerner added 10. Gaekler also pulled down 13 rebounds. Freshman Dallas Winslow topped the visitor's order with 16 points and registered 11 rebounds.

Coach John Carpenter's Bullet freshman squad recorded their second win in as many outings by topping the Dickinson JV's 85-72 in the preliminary game. Once again the yearlings had opportunities to break the game wide open, but did not take advantage of the situations.

MORRIS PACES FROSH

Bob Morris, a sharpshooter from Annapolis, was high scorer with 32 points including 15 for 27 field attempts. Dave Thomas rammed through 28 points for Dickinson.

TOM TRESH IS CHOSEN ROOKIE OF YEAR IN AL

BOSTON (AP) — Switchhitter Tom Tresh of the New York Yankees walked right past his father's major league footsteps into the American League Rookie of the Year award today.

A picture of versatility in all he undertook, Tresh drew the votes of 13 of the 20 members of the Baseball Writers Association of America who were on the selection committee.

Los Angeles Angels' catcher Bob Rodgers was named on four ballots while one vote apiece was given to Minnesota second baseman Bernie Allen, Los Angeles pitcher Dean Chance and fireballing relief hurler Dick Radatz of Boston.

WAS VITAL COG

Tresh was a vital cog in another Yankee march to baseball supremacy, playing 111 games at shortstop, then moving to left field for 43 after Tony Kubek returned from service. With three additional games in a pinch-hit role, Tresh batted .286, scored 94 runs, drove in 93, hit 26 doubles, five triples and 20 homers.

Born in Detroit 24 years ago, Tresh is the son of former Chicago White Sox and Cleveland Indians catcher Mike Tresh, 1938-49.

The latter was known as a fine, iron-man receiver who caught every game in one season. His best batting season was 1940 when he hit .281.

Mike Tresh was in the stands when Tom won the fifth World Series game 5-2 over San Francisco by hitting a three-run, eighth-inning homer.

The younger Tresh is a 6-foot, 180-pounder who says he prefers the outfield to shortstop. He currently is in his sixth semester at Central Michigan University at Mt. Pleasant, Mich., where he is majoring in physical education.

Rookie of the Year in the International League a year ago, Tresh was second on the Yankees in hits with 178 and RBI with 93 and was third behind Roger Maris and Bobby Richardson in total bases.

ACES HIT ROAD IN LOOP LEAD

By THE ASSOCIATED PRESS The Quebec Aces, unbeaten at home but less than 300 on the road, left on an extended road trip today with a slim, four-point lead in the American Hockey League's Eastern Division.

The Aces kept their home record unblemished, coming from behind for a 2-2 overtime tie with Springfield in the only game on schedule Thursday night. It gave the Aces a record of nine victories and four ties at home. They have won four and lost six on the road.

Their road trip calls for six games in 10 days, including one with each of the contending Eastern Division teams, Springfield, Providence and Hershey.

The tie enabled Springfield to advance to a tie for second place with Providence, four points behind Quebec. Hershey trails by just one more point and Baltimore three more.

Michel Harvey's third period goal brought Quebec from behind a 2-1 deficit and forged the tie. The 10-minute overtime period was scoreless.

Skippy Burchell got the other goal for the Aces, while Roger Cote and Ted Harris scored for the Indians.

No games are scheduled in the league tonight.

Ike Tells About Dinner Speeches

NEW YORK (AP) — Former President Dwight D. Eisenhower good-naturedly teed off Thursday night on the custom of after-dinner speaking.

Eisenhower made these points about speeches:

When asking a guest to say nothing at a dinner, the dinner committee expects a 20-minute speech.

An invitation to make a brief, off-the-cuff talk means the committee wants a written speech, three days in advance, so it can arrange for full press and television coverage.

PHILADELPHIA (AP) — General manager John Quinn of the Philadelphia Phillies of the National League has announced the release of Eddie Dancsak, a scout, Quinn said Thursday the move was in line with a consolidation scouting plan and that other scouts would now cover the territory once surveyed by Dancsak.

Knicks Knock Off Cincinnati 99-96

By THE ASSOCIATED PRESS New York's new-look Knicks may not be going anywhere in the National Basketball Association chase, but they give indications of turning spoliars.

That was the role they took Thursday night, knocking off Cincinnati 99-96 and foiling a Royal bid to move past idle Syracuse into second place in the Eastern Division.

Chicago whipped St. Louis 106-93 in the only other game on schedule, the Zephyrs climbing out of the Western cellar and knocking second place St. Louis 1½ games off Los Angeles' leading pace.

FEW TICKETS FOR NFL GAME

NEW YORK (AP)—The National Football League championship game is going to drive a lot of people out of town.

That may be the only way they can see it.

Tickets haven't gone on sale yet, and already it looks like it might have been easier to snag a pair of seats on Noah's Ark than for Yankee Stadium for the Dec. 30 game between the New York Giants and the Western Division winner.

Hundreds of New York fans have reported they plan to travel to areas where the game will be shown on television. It is blacked out for a 75-mile area around New York.

Some 45,000 season ticket holders get the first call on seats. The rest are limited to four to a buyer, who must call in person to get them.

PLAY BRUINS ELUDE SLUMP

DETROIT (AP) — The surest way to come out of a slump in the National Hockey League is to play the Boston Bruins.

Even then, the once-pace setting Detroit Red Wings had to struggle to make it in Thursday night's only NHL game. For 45 minutes the Wings looked like they were a distant last—winners of only two games in two months—not the Bruins.

But in the final 15 minutes the Red Wings poured four goals past goalie Bob Perrault and wiped out Boston's 3-1 lead. The 5-3 victory was the first in four games for Detroit, NHL leaders almost all season until last Sunday.

The Wings returned to second place, a point ahead of Toronto and a point behind Chicago, with their comeback rally. Parker MacDonald, Gordie Howe, Bruce MacGregor and Marcel Pronovost scored the late goals in the only game scheduled.

The game between the two unbeaten and untied teams was rated a tossup. Overcast weather with temperatures in the low 30s was forecast for the game for the NAIA title.

Lenoir Rhyme, of Hickory, N.C., running from a single-wing featuring spinner plays, collides with the split-T attack of Central Oklahoma's Bronchos that scored 422 points in 10 games.

Lenoir Rhyme won the NAIA championship in 1960 and was the runner-up in 1959. Central Oklahoma is making its first appearance in the title classic.

Both coaches reported their teams in top shape.

PHILADELPHIA (AP) — Dave Crossan, offensive guard and center for the University of Maryland, and the third draft choice of the Philadelphia Eagles has been signed by the National Football League team. The 22-year-old Crossan, a senior, is 6-foot-2 and weighs 235.

Frank Basehoar, 17, Wins A. G. Ealy Award At LHS

The A. G. Ealy Memorial scholarship and trophy to the most outstanding senior football player at Littlestown High School were presented Thursday to Frank Basehoar, 17-year-old guard and co-captain, at the regular school assembly program in the school auditorium-gym. The surprise presentation was made by L. Robert Snyder, vice president of Littlestown Hardware and Foundry Co., of which Mr. Ealy also was a vice president at the time of his death in 1960.

The honor includes an 18-inch engraved silver cup and a \$500 cash award which must be used for a college education at an accredited school. In the event that the recipient fails to attend college, the money must be given to the Athletic Council for the high school's football program.

WAS FOOTBALL COACH

Ealy coached football at Hanover High School in the late 30s and through the 40s, and was particularly interested in sports at Littlestown High School. His opinions were highly regarded by athletes and coaches and his advice was sought by many athletic authorities throughout the area.

Young Basehoar was selected by coaches, the Athletic Council and a representative of the company from 12 senior teammates on the basis of football ability, scholarship and citizenship, each of which is considered of equal merit under the rules of the scholarship. Donald Jones, who is a student at Albright College, received the first award last year. In addition to the awards, the winners' names are placed in the school's trophy case on the A. G. Ealy "Hall of Fame" plaque.

Basehoar, a six-footer who weighs 190 pounds, has played football since seventh grade, and on the varsity team played defensive end as well as guard position. He also is an outstanding basketball center and is on the track team. He was selected

for the All-Laurel Conference team and was nominated for the AP All-State team. He received honorable mention by the Big 33.

The son of high school principal and Mrs. Frank Basehoar Sr., he has been president of his class for three years, a member of the Student Council for three years, a member of the yearbook staff and the high school band, and was one of several student band leaders, under the supervision of Band Director Paul Harner. A cornetist, young Basehoar was chosen by his school to participate in the Adams County High School Band Festival this year.

IS HONOR STUDENT

A four-year honor student, he has been accepted by two colleges for fall admission, and plans to major in economics or political science. He has been an outstanding student of history and social studies throughout his high school career.

"He is one of the finest football players I have ever seen," his coach, William Heyser, says. Heyser joined the school staff in September as varsity football coach. Associate coaches Jack Bream and Dale Hamm share his opinion of young Basehoar, whose two younger brothers, Douglas, in 10th grade, and Richard, a first grader, are interested in football.

Rens Lace Majors Thursday Evening

Late scoring bursts by Charley Tyra and Connie Hawkins won Thursday night's game and boosted the Rens' record to 6-3 for a percentage point lead over the third place Kansas City Steers.

New Book Describes Homes Of 34 American Presidents

The homes of 34 American presidents, from Mount Vernon to Hyannis Port, are described in detail and fully illustrated in a new book, "Homes of the American Presidents," which McGraw-Hill recently published. The author is Cranston Jones, a senior editor of Time Magazine and author of "Architecture Today and Tomorrow." Architectural photographer William H. Schleisner has taken the photographs. There are, in addition, selected paintings, drawings and lithographs of the periods in question.

Jones describes all the homes of the Presidents — their birthplaces, as well as the houses to which they retired after their years of office. In doing so, he has written an informal history of American taste.

"These historic houses," he writes, "owe their status as national shrines to the historical happenstance that they belonged to men who were chosen for the nation's highest office. Judged purely as architecture, perhaps only a single structure, Jefferson's Monticello, would rank as one of the great houses of the New World.

"CHANGING TASTE" Yet, taken as a whole, these dwellings show the whole evolution of domestic architecture in America. Doubly valuable when they have been maintained in anything like their original state, they are both within and without a remarkable panorama of changing taste, an invaluable documentation of the organization and development of the American home.

... Here — in terms of living rooms, sleeping quarters, parlors, and kitchens — is to be seen the whole evolution of family life in America."

In describing the Presidential homes, Jones has provided a revealing and intimate glimpse of their famous owners. Drawing often on contemporary documents, he reveals what Washington gave his guests to eat, how much Benjamin Harrison's house cost, what color Jackie Kennedy used in decorating Hyannis Port.

Many Presidents designed and built their own houses. Washington, Jefferson, Jackson, William Henry Harrison all drew their own plans and personally instructed their servants how to make and lay bricks. Jefferson also designed the houses of Madison and Monroe as well as the Virginia Capitol and the University of Virginia.

DETAILED INTERIOR

Theodore Roosevelt detailed precisely the interior he wanted for Sagamore Hill; Woodrow Wilson drew the plans for his Princeton house after making a clay study model; FDR built a small-scale model for the conversion of Hyde Park.

Van Buren at Lindenwald was the first President to install central heating; Buchanan, in Wheatland, the first tub-with-shower; McKinley, in Canton, Ohio, the first to have a direct telephone line to convention headquarters.

As well as describing their architectural features, Jones recreated the atmosphere of each home: The gardens beside the Hermitage where Andrew Jackson nightly came to stand by the grave of his beloved Rachel; the unobtrusive reinforced banisters at Hyde Park that record Franklin D. Roosevelt's heroic battle for health; the light frame house with its family Bible in Abilene, Kansas, where the six Eisenhower brothers grew up.

USE AS GUIDE

"Homes of the American Presidents" can also be used as a guide. The author gives details about visiting hours, prices of admission, which houses are national monuments, and when they were restored, etc.

"These Presidents' homes have all known the limelight of history," Jones concludes. "For us today they can also be beacons, guiding us to the hearthstone of our great national heritage, quickening our awareness of the great personalities of the past, and vividly recreating our own history which, as President Kennedy reminded us, is but prologue to the future."

The Gettysburg Times

Gettysburg, Pa.

Dear Sir:

In our opinion the recent series of articles by The Gettysburg Times on insecticides in Adams County agriculture, is to be commended as an honest attempt to educate people by presenting both sides of a controversial question.

Farmers and consumers are being aroused and angered by a series of articles on pest control chemicals whose authors do not hesitate to take a small grain of truth and distort the situation into one-sided scare stories for the sake of a pet belief, political power or money from the sale of articles or books. We accept and welcome the truth and The Times articles are a good step in this direction.

Without pest control chemicals, Adams County would be changed beyond recognition. There would be no commercial crops of apples, peaches, cherries, raspberries, strawberries, potatoes or tomatoes. Many more products, including hay, beef and poultry, would be more difficult to produce. Factories and jobs based on a steady supply of farm crops could not operate. We could grow many things on a small scale by use of hand labor to remove insect pests but disease outbreaks would periodically wipe out whole crops. Apples, for instance, have 192 known diseases and most crops are subject to 25 or more diseases.

ENJOY LONGER LIVES

Our people now enjoy longer lives and live better than ever before in history. Our medical facilities are outstanding. Our grocery stores are one of the world's great wonders and stock hundreds of food items all year long at nearly uniform prices. These items have been checked in every way humanly possible to see that they are clean, attractive and contain no harmful impurities. Good food and good medical care are pushing our age limits higher and higher.

Human sickness and death can be caused by careless use of some pest control chemicals but the total number of such cases is very small. The danger is nearly always to the man who applies the chemical — not to the consumer. Many of the most toxic chemicals have a very short life on the plant and disappear within a few days. There has never been a single recorded case of human death due to a pest control chemical used as directed.

There is however no excuse for people who do things like storing pest control chemicals in the pantry and using them by error in cooking.

RESEARCH PROGRAM

The Pennsylvania State University has a very extensive research program aimed at safe and effective pest control. We are responsible for that program on farm fruits. We do not believe that any improper use of chemicals has occurred on fruits in Pennsylvania.

21st Anniversary Of "Day Of Infamy" Marked Today

By ROBERT MYERS

PEARL HARBOR, Hawaii (AP)—The "Day of Infamy" was marked quietly and without ceremony today while the Navy at Pearl Harbor turned its attention to sports.

On Ford Island, less than a mile from the black-scarred coast where the Japanese attack of Dec. 7, 1941, was centered, a nine-hole golf course was dedicated. A boxing program at Bloch Gymnasium, across the water from the sunken hulk of the USS Arizona, featured five amateur Japanese fighters.

There was no official recognition of the 21st anniversary of the darkest moment in U.S. naval history.

DAILY SHUTTLE

A small boat shuttled between the shore and the memorial, as it has done daily since last Memorial Day when the shrine was completed. A Navy official said larger-than-usual crowds were expected to make the trip. Otherwise activity in the busy harbor was normal.

Veterans groups, other patriotic organizations and individuals planned to take flowers to honor the 1,102 men entombed in the Arizona.

Although it has done so in other years, the Navy scheduled no speeches or ceremonies above the battleship. A new policy of the Navy Department specifies that tributes to the dead of battle may be held only on Memorial Day.

FLAG OVER ARIZONA

The American flag was raised over the Arizona at dawn—a daily ritual. The Arizona is considered still in commission by the Navy because her crew is aboard. Giant aircraft carriers, nuclear submarines and other modern warships pipe a salute as they move by her "berth."

The carrier Constellation—largest in the Pacific—stood alongside the Arizona Thursday and 4,000 members of her crew lined the deck to pay homage to the fallen warship.

The Arizona memorial honors all dead of the Japanese attack. A total of 2,403 men perished in the terrible moments of a Sunday morning that marked America's entry into World War II. The Arizona died eight minutes after taking a bomb down her stack.

4 BATTLESHIPS SUNK

Four battleships were sunk, one was heavily damaged and three

sustained light damage. Six—California, Maryland, Nevada, Tennessee, Pennsylvania and West Virginia—returned to carry the war to Japan. Only the Arizona and the Oklahoma, which sank while being towed to the West Coast, ended their battles at Pearl Harbor.

A former battleship, the target vessel Utah, was sent to the bottom in the attack. The Utah's rusting hulk still rests in the mud, a tomb for 54 men.

Abbottstown

ABBOTTSTOWN — The fire company met Tuesday evening in the fire hall, with 18 members present. The meeting was in charge of President Lester Spangler. Larry Leib reported on refreshment sales at record hops held by the Flaming Knights during November. Lester Spangler, Don Wildasin and Ernest Adams were named to prepare and serve refreshments for the month. Harry Moul, chairman of the progress committee, reported on plans for the firemen's ladies' party.

An orchestra has been engaged for the Christmas dance December 28. All firemen will be contacted to make reservations. The committee also reported final plans for refreshments and prizes. Chief Ervin Bollinger reported that the county fire chiefs will hold their monthly meeting here on December 13. They also reported that homemade bean soup and other refreshments will be served. All local active firemen are invited to attend.

Bills in the amount of \$82 were presented and approved for payment. Receipts amounted to \$127. Two candidates were proposed for membership. Chief Bollinger reported that the company answered two alarms since the last meeting.

Card parties at the fire hall will be discontinued during the Christmas season but will resume the first and third Saturdays of each month thereafter.

A meeting of the firemen's relief association was held after the meeting and the new accident policy for all members was explained by Bernard Anthony. Negotiations for refinancing the firemen's mortgage were discussed and members will be requested by mail to vote on the issue.

The Flaming Knights will hold a record hop this evening from 7:30 to 11 o'clock in the fire hall. The Ladies' Aid Society of St. John's Lutheran Church met in the church parlor Monday evening. The following were hostesses: Mrs. Pearl Smith, Miss Grace Smith and Miss Elsie Eisenhart.

2 PA. STUDENTS GOING TO D.C.

WASHINGTON (AP)—Two high school students from Coatesville, Pa., and Abington, Pa., are among 102 who will take part in the first U.S. Senate youth program.

They will observe government operations here for a week, from Jan. 28 to Feb. 2. The program, authorized by a Senate resolution, is financed by a \$70,000 grant from the William Randolph Hearst Foundation. High school students from all the state and the District of Columbia will participate.

The Pennsylvania students, selected by the state superintendent of education Thursday, are Dennis M. O'Hara of Coatesville, who attends Horace Scott Senior High, and Michael A. Mullett of Abington, who goes to Abington Senior High.

TWO HS GIRLS PLAY HOOKY TO SEE KENNEDY

PITTSBURGH (AP)—Meeting President Kennedy is getting to be commonplace for a couple of high school girls from Pittsburgh.

The two, Judy Mankin, 16, and Anita Bernstein, 16, shook hands with the President while he was in Pittsburgh on a political tour two months ago.

Wednesday, the two Peabody High School honor students did it again—this time at the White House. And the President remembered them.

"You're from Peabody?" Judy quoted Kennedy as saying.

BRACELET FOR EACH

"I was so excited I don't remember what else we talked about," she said. "He gave us each a charm bracelet with a PT boat on it. The boat has 'Kennedy' inscribed on it."

It was the President's press secretary, Pierre Salinger, who arranged the latest meeting. Salinger was in Pittsburgh Tuesday night and the girls asked him if it was possible to see the President. Salinger said to contact him if they ever got to Washington.

They accomplished that during the night, after hopping a bus. They reached Salinger who first took them to a press conference. Then, he left the girls alone in his office.

PLAYED HOOKY

"When he came back he said it was all right, the President would see us between conferences," Judy said. "He (the President) came to the door to greet us."

Even though the girls had to play hooky to achieve their mission, no one seems to mind. As Judy's mother, the former Cecile Gilbert of Fort Worth, Tex., put it:

"It was a dream come true for the girls."

HERRINGTON'S SENTENCE TO BE REVIEWED

SAN ANTONIO, Tex. (AP)—Col. John A. Herrington, sentenced to five years at hard labor and dismissal from the Air Force for killing his wife and wounding a son, started a long but hopeful wait today for a review of his case.

Herrington, 46, a career officer once high in U.S. nuclear planning circles, shot his wife to death and wounded a son, Joseph, 19, on Aug. 9.

A military court at Kelly Air Force Base found him guilty Thursday of voluntary manslaughter and attempted manslaughter and set the sentence. The defense had argued that Herrington was temporarily insane at the time of the shooting.

TO BE REVIEWED

His case goes to Maj. Gen. W. T. Hudnell, commander of the San Antonio Air Materiel Area and Herrington's superior, for review.

Hudnell can reduce the sentence or dismiss it. He cannot increase the sentence.

A combat veteran who flew more than 40 missions in World War II and 30 in the Korean war, Herrington heard the conviction without any display of emotion. An hour and a half later he appeared stunned as the sentence was read.

Herrington now faces trial in a civilian court Feb. 25. His civilian lawyer, James Gardner, said a trial in a state court for the same offenses would not violate legal provisions against double jeopardy—being tried twice for the same crime.

31 Dependents To Return To "Gitmo"

NORFOLK, Va. (AP)—Thirty-one Navy dependents leave here by air today to return to Guantanamo Naval Base in Cuba. They are the first of the dependents evacuated at the onset of the Cuban crisis to return.

The first dependents to return by sea will leave New York aboard the USNS Geiger Dec. 14. The Geiger is due to sail from New York again Dec. 19 with a second load of dependents.

TOO MANY SANTAS

WALLACEBURG, Ont. (AP)—Three thousand school children were puzzled when two Santas appeared in the annual Santa Claus parade Thursday. The youngsters, unable to distinguish the impostor, pelted both with snowballs.

Western

(Continued from Page 1)

Also damaged were fences at the Woerner farm. Police estimated the fence damage at the Gettysburg R. 3 farm at \$50.

Ralph Otto Myers, 45, Westminster, Md., was the engineer for the train while Lee Eline, McSherrystown, was conductor.

The Woerner family was aroused by the crash and phoned the local firemen's ambulance to remove the truck driver to the Warner Hospital where he was admitted as a patient.

State police said the diesel engine and the caboose were "badly damaged." Mrs. Woerner said the crash "almost took the roof off the caboose."

APPLES IN CABOOSE

The train was enroute from Orrtanna to Gettysburg. It consisted of the diesel engine used for shifting, followed by the caboose, an empty car and four loaded cars which it was bringing from Orrtanna to Gettysburg.

J. Howard Gaines, Western Maryland freight agent here, said the impact badly damaged the front and sides of the engine and knocked the caboose from its wheels, sending the body of the caboose back against the empty car following it. If it had not been for that car the body of the caboose would have been "on the tracks," he said.

About 50 bushels of apples landed inside the caboose itself. Western Maryland Railway Detective Milton Tipton said the apples were "chewed into bits" from the impact. The apples, he said, were from the Blue Ribbon Orchard enroute to an A&P at Martinsburg, W. Va.

Conductor Eline, brakeman Lawrence Miller, Hanover, and Flagman "Doc" Bennett, Hanover, were all in the caboose at the time of the accident. They were reported "shaken up."

36 Miners

(Continued from Page 1)

At that point there is a sloping tunnel without branches extending two miles to the working face. The tunnel drops gradually from 325 feet to 650 feet. That's the point where the men are trapped. There is only one exit to the surface.

Mine officials said air coming up from the mine shaft contains large amounts of carbon dioxide, indicating there is fire in the blast area.

The first indication of anything wrong was the reported failure of an electric exhaust fan. It blew out, but was repaired in 10 minutes. Five minutes later it conked out again.

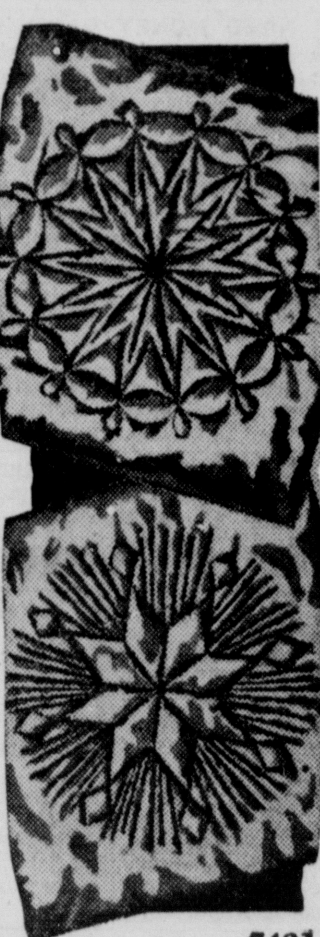

DETECT EXPLOSION

James Girod, an assistant mine superintendent, said the first crews down the shaft detected dust coming from all directions, indicating an explosion or fire.

The major problem for the rescue teams was to pump bad air out and clean air in. Concrete ventilation shafts had buckled under the blast.

Inside a corrugated steel shack above the surface some three dozen relatives of trapped miners waited in bitter wintry weather for news.

A Lovelier You

By MARY SUE MILLER

GIFT-WRAPPED. Your personal touch on a gift makes it twice welcome. For it shows that you have given special thought to the recipient.

Ways to achieve a person-to-person note are numerous. But

none is more sure than a wrapping that reflects the tastes or interests of the recipient. Purely as a springboard for your own ideas, these suggestions:

For a man's package, use green paper imprinted with holly-wreathed match books; tie with wide green ribbon and top with a large chocolate pipe. Or use plain-colored, glossy red paper, "monogrammed" with paste-on initials in gold.

To intrigue a lovely, wrap her gift in crinkly gold fashion foil and cap with a full-blown foil rose. The bloom is easy to make, as the foil handles like fabric.

With a traditional feeling, another scheme is to cover a box with matte-white gift paper, frame the edges in kitchen lace-paper edging and then run narrow green and red ribbon through the lace.

If you plot to delight a child, choose paper with a candy-cane motif and paste a new penny in the crook of each cane. Or try peppermint-stick paper and decorate with a cut-out Santa's head.

But do work up your own ideas. Your touch is the touch that is most appreciated.

INSTANT BEAUTY TIPS

For 50 ways to look lovelier, send for my leaflet, "INSTANT BEAUTY TIPS." It shows you how to overcome such annoyances as chipped polish, ragged lipline, straggly hair, and even stuck zippers; also, how to create glamour fillips with makeup and accessories. All in the wink of an eyelash! For your copy, write Mary Sue Miller, Box 158, The Gettysburg Times, Dundee, Ill., enclosing a self-address, stamped envelope and five cents in coin.

Is Convicted Of Murder At Hotel

PHILADELPHIA (AP)—A jury has convicted Leonard Archambault, 30, of Queens, N. Y., of first-degree murder in the robbery-slaying of the manager of the Forrest Hotel on Aug. 10.

Edward Blecher, 65, the manager, was found strangled and with head wounds in his apartment at the hotel. Archambault was arrested three weeks later in New York City.

The jury of four men and eight women returned the verdict Thursday after a two-day trial and fixed the penalty at life imprisonment.

Cuban Refugees Reach Pittsburgh

PITTSBURGH (AP)—Ninety Cuban refugees arrived by plane in Pittsburgh from Miami Thursday to resettle in Allegheny County.

The group is the third to settle in Pennsylvania. The first two went to Philadelphia. That city has requested another group. Twenty-five groups have resettled in large city areas throughout the country and 17 more are due for resettlement.

The resettlement in Allegheny County is sponsored by the Council of Churches of the Greater Pittsburgh Area, various church-related agencies, the World Service of the National Council of Churches, and the U. S. Department of Health, Education and Welfare.

Except for a few stragglers, all the city's buses returned to their depots by 10:30 p.m., two hours before normal quitting time. Train schedules remained in chaos.

Even in the brightly lit West End, people groped their way through the shrouded shopping streets.

At the height of it all, Sir Winston Churchill went out to dine. The 88-year-old war leader spent 2½ hours at the Savoy Hotel with friends of the Other Club, an exclusive dining group he helped found 51 years ago. He came out in the murk with a

JFK TO TOUR TEST GROUNDS OVER WEEKEND

WASHINGTON (AP)—President Kennedy will view a nuclear-fissioned hole in the ground in Nevada on his weekend tour of military and scientific centers in the Midwest and Far West.

The White House, in announcing Kennedy's schedule, said he will fly over the U.S. nuclear weapons test ground in southern Nevada on Saturday. Among other things he will see the crater—1,200 feet across and several hundred feet deep—that was dug by a nuclear detonation equivalent to 100,000 tons of TNT in a test explosion last July.

Kennedy leaves Washington Friday morning, landing first at Offutt Air Force Base in Omaha, Neb., for a tour of the Strategic Air Command underground headquarters and a secret briefing.

TO VISIT LAB

He goes from there to Santa Fe, N.M., arriving early in the afternoon, for a tour of the Los Alamos scientific laboratory where he'll get a briefing on the Rover nuclear-powered rocket project.

By helicopter he travels to Kirtland Air Force Base, near Albuquerque, N.M., for another tour and more briefing, this time at the nearby Sandia Corp. plant where many of the items used in nuclear bombs and warheads are made.

He will stay overnight at Albuquerque, attending Mass at the base chapel Saturday morning—Paris.

Pope Celebrates Mass In Chapel

VATICAN CITY (AP)—Pope John XXIII, convalescing from a stomach disorder and anemia, celebrated Mass today in his private chapel.

Apparently it was the first time he had said Mass since becoming ill nine days ago.

There had been reports that he had celebrated Mass before in that period but until today, no Vatican source confirmed that he had. Today's information about the Mass was published in the Vatican paper, L'Osservatore Romano.

L'Osservatore and other Vatican sources gave no report on his condition. But the news that he had celebrated Mass—requiring him to be on his feet at least 30 minutes—was considered evidence of the continued improvement of his condition.

A Roman Catholic observance of the Feast of the Immaculate Conception.

After Mass, Kennedy will fly to Indian Springs Air Force Base in Nevada. Then he takes a helicopter ride over the nuclear testing grounds enroute to a tour of three installations at the nuclear development station near Las Vegas, Nev.

After that Kennedy skips over to Palm Springs, Calif., for a day and a half of relaxation. He will stay at singer Bing Crosby's home leaving Sunday night for an overnight flight back to Washington.

An 1852 law, passed in the reign of Napoleon III, called for regular inspection and repair within base chapel Saturday morning—Paris.

SPENDING UP FOR INDUSTRY; RECORD SEEN

WASHINGTON (AP)—Industrial spending for new plants and equipment ran well ahead of the amount predicted for the third quarter of 1962 and probably will push the year's total to a record high, two government agencies report.

But spending estimates indicate a leveling off of capital outlays in this quarter and perhaps a slight decline in the first part of 1963.

The joint announcement Wednesday by the Commerce Department and the Securities and Exchange Commission said the survey show industrial spending reached a record yearly rate of \$38.35 billion during the July-September quarter. This brings the all-year rate of such spending to \$37.4 billion and if continued to the end of the year would eclipse the previous high of \$37 billion in 1957.

INDICATES FUTURE

Government and private economists rely heavily on the survey because it shows, in addition to the amount of job-creating investment being done, what business executives think about future sales and earnings. If they are confident, they expand.

The survey of future spending plans indicates a decline in the first quarter of 1963 to a \$37.7 billion annual rate.

But some government economists, noting that industry itself underestimated its third quarter investment expenditures by about \$500 million, speculated the gain will continue into next year.

Three Charities To Receive \$100,000

NEW YORK (AP)—Three charities designated by an anonymous art collector will receive the \$100,000 paid Wednesday night for Pierre-Auguste Renoir's "La Fete de Pan."

The winning bid for one of Renoir's major works came from Mrs. Robert Gurney, wife of a New York industrialist, at the Parke-Bernet Galleries.

The charities sharing the money are the Fresh Air fund of the New York Herald Tribune, which since 1877 has been providing free vacations for thousands of underprivileged children each year; the United Jewish Appeal, a fundraising arm of several Jewish organizations; and the Colonies de Vacances, a vacation philanthropy in Geneva, Switzerland.

The collector, now dead, had specified that his executor donate the proceeds from the sale to the three charities.

TAX HEAD SEES 'SOUND' RULES

WASHINGTON (AP)—Internal Revenue Commissioner Mortimer M. Caplin says his agency does not want to interfere with legitimate expense account deductions in setting up new tax rules.

Caplin promised Wednesday that the regulations enacted by the Internal Revenue Service "will achieve a basically fair and sound approach consistent with the intent of Congress" under the law that authorized them.

Caplin issued his statement after two days of hearings on proposed tax rules which the IRS says are designed to stop expense account abuses.

The proposed regulations brought a chorus of protests from businessmen and their organizations.

The 1962 tax law, effective Jan. 1, requires more stringent bus-

WAS KEPT ALIVE BY AF TRAINING

BELLINGHAM, Wash. (AP)—One of a trio of skiers who spent three freezing nights on 10,750-foot Mt. Baker in northwest Washington, says Air Force survival training saved his life.

Air Force Lt. David Kozak, 24, Buffalo, N.Y., hospitalized Wednesday for frostbite and exposure after his rescue, said he and two others tunneled into the snow at night, huddled together and slept on pine boughs.

Air Force Lt. John Melien, 22, Lindstrom, Minn., was suffering from extensive frostbite and exposure. His condition was described as serious. Kozak and Melien are stationed at McChord Air Force Base near Tacoma, Wash.

A third man, Donald I. McKinnon of Vancouver, B.C., was hospitalized in Abbotsford, B.C., apparently in fair condition with frostbitten feet.

The three men had no food and ran out of matches the first night.

A search party found them trying to climb a cliff in a rugged canyon a few miles from Mt. Baker Lodge.

ORDERS SPEED FOR COUNCIL

VATICAN CITY (AP)—Pope John XXIII today authorized new regulations designed to speed the work of the Roman Catholic Eucharistic Council by using its nine-month recess to redraft almost all proposals before it.

The rules for the procedure during the recess—starting Saturday and ending Sept. 8—were announced to the 2,200 council fathers at their session in St. Peter's.

Many council fathers have said the council, at its current pace, could go on for years. Preparatory commissions wrote more than 70 projects, or theses, for examination as possible council decrees or constitutions.

Pope John's rules, issued today, said the council's commissions would meet during the recess to redraft the schemes, condensing them into 20 projects.

The Pope also authorized creation of a special commission, headed by Vatican Secretary of State Amleto Cardinal Cicognani, to coordinate and direct the work of the drafting commissions during the recess.

Mr. Shnoo's Zoo

Chapter Five POOR HONEYBUN

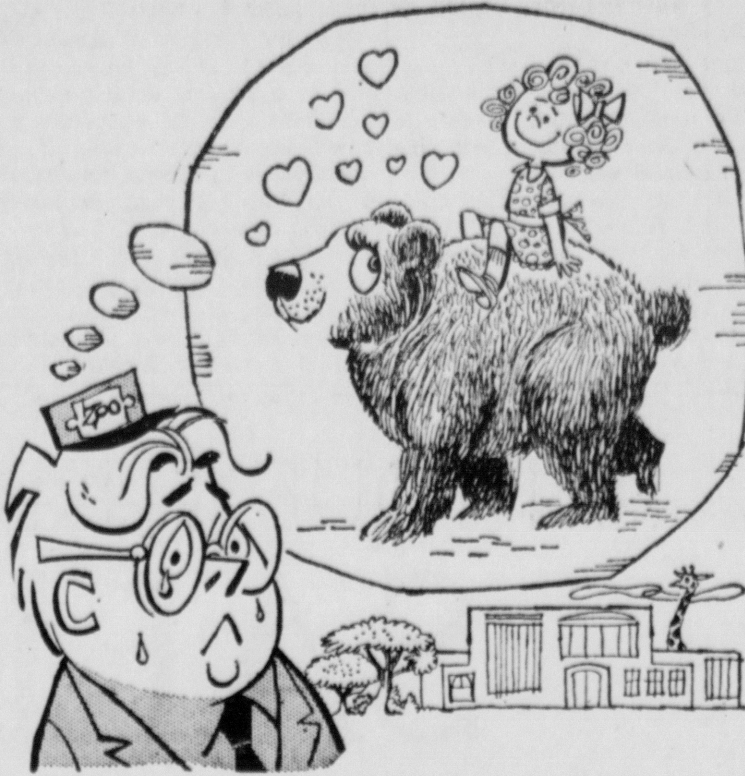

WHEN HONEYBUN was a little bit of a cub in a faraway land, her mother had been killed by a hunter. When the hunter discovered the orphaned baby bear, he was sorry for what he had done. He carried the cub all the way back to his own land and gave her to Mr. Shnoo.

"She's a runt and she's sickly," said the hunter. "But maybe she'll have a chance with you."

Mr. Shnoo fell in love with the little brown bear. He called her Honeybun. He kept her in his room and gave her milk from a bottle every three hours. He kept hot water bottles in her bed and gave her cod liver oil and vitamins. Most importantly, he gave her lots and lots of TLC, which is a prescription for Tender, Loving Care.

Honeybun thrived. She was always a runt but she was the liveliest runt anyone ever saw. After a few months she was so lively she was moved to the caves with the big bears.

Everyone loved her. She was such a show-off. She would stand on her hind legs and clap her paws and make funny faces. Little children saved all their peanuts to throw to Honeybun. The bear would stand there making faces and putting on a regular circus until the children had thrown in all their peanuts. She knew exactly when the bags were emptied and no more peanuts coming. Then she would sweep up all the nuts from the ground and have a feast. She never lost a nut no matter where it landed. Once a little girl squeezed between the bars of the cage and ran up to Honeybun, waving a vanilla ice cream cone. Every-

"She'd never hurt a soul," declared Mr. Shnoo.

one screamed and the keeper went leaping over the fence waving a stick.

They need not have become so excited. Honeybun simply licked the ice cream off the cone. Then she licked the little girl's mouth where some ice cream was sticking. Then she yawned and lay down for a nap.

After that, they sometimes let children lead Honeybun around the zoo on a chain. Sometimes little children even rode on her back.

"She'd never hurt a soul," declared Mr. Shnoo.

But now someone had hurt Honeybun. She came tottering out of her cage holding her paws over her mouth and growling deep in her throat.

"Something's stuck in her mouth," said Mr. Shnoo. He climbed the fence and put his arm around Honeybun's neck. Honeybun dropped to all fours and stood shaking her head, moaning and rolling her eyes. Mr. Shnoo put his hands on her muzzle and gently opened her jaws.

All Honeybun's teeth were gone! Santa followed Mr. Shnoo over the fence. He picked up something from the ground. "Look! A firecracker!"

Now it was all clear. Someone had given Honeybun a firecracker instead of a peanut and the firecracker had gone off in the poor bear's mouth and blown out all her teeth.

Honeybun's roar of pain had been heard all over the zoo and attendants and office workers and the animal doctor gathered at the cave.

"Do something!" Mr. Shnoo begged the doctor. "She's in terrible pain."

The doctor examined Honeybun and shook his head. "Better put her to sleep," he said. "Without teeth she can never eat again. She'd starve by and by."

Santa stepped forward and said, "I think I can help her."

Crookshank was standing there with the rest and he said, "Whoever you are you'd better move on. You heard what the doctor said and he ought to know."

The others muttered among themselves saying, "Why not let him try?" And Mr. Shnoo took Santa's arm and said, "Please! Do what you can."

"Very well," said Santa. "But I can't do it here."

He tied a rope around Honeybun's neck and led her away. Mr. Shnoo watched until they had almost disappeared. Then he went running after them crying, "Wait for me! Wait for me!"

INDIA CLOSES RED OFFICES

NEW DELHI, India (AP)—India announced Thursday closing of her consulates in Communist China and Tibet because of restrictions placed on them by Red Chinese authorities.

Closing of the consulates, at Shanghai and Lhasa, will be effective Dec. 15, a spokesman for the Indian Foreign Ministry said.

Red China has been asked to close her two consulates at Bombay and Calcutta reciprocally on the same date, the spokesman said, adding a note to this effect was given to the Chinese Embassy in New Delhi Monday.

The closure will leave India with a charge d'affaires and an embassy staff in Peking. China has the same in New Delhi.

An Indian spokesman said harassment by Chinese authorities finally made it increasingly difficult for consulates to carry out their normal duties.

ADVERTISE IN THE TIMES

FILL GAPS LEFT BY CANCELLED SHOWS ON TV

By CYNTHIA LOWRY
AP Television-Radio Writer

NEW YORK (AP) — Now that the television networks have canceled six faltering programs in midseason, it might be interesting to examine how they propose to plug the scheduling holes that result.

NBC, for instance, will fill the two-hour gap left by back-to-back departing shows ("It's A Man's World" and "Saints and Sinners") by running middle-aged feature movies. There's a rumor that these Monday night excursions will be followed by a new Art Linkletter show.

CBS is reviving, in longer form, an established show, "Twilight Zone" to fill one gap, and pushing a game show "Password," into a late evening 30 minutes occupied by Loretta Young.

ABC is shuffling some shows—two of them re-runs—and handing a resulting open hour back to its local stations and affiliates to program.

The press handouts of all networks and packageers are loaded with little nuggets about their bold, exciting, stimulating and off-beat programming plans—for next September. There must be a reason all these tempting goodies are being carefully preserved on television's top shelf, safely out of sight.

That reason is you and I and our nasty way of deciding, early in the television season, which of the available programs we choose to see, and sticking with those

choices through thick and thin until our habits are smashed by the summer re-runs.

THROW IN SPONGE

Studies of mid-season replacements over the past seasons show conclusively that new substitute programs—no matter how high their quality—have done less well in terms of total audiences, than the failures that preceded them.

Therefore, NBC has decided to throw in the sponge—temporarily—as far as fighting for Monday night audiences are concerned (CBS controls the evening) and will slip through the rest of the season as quietly and economically as possible. That means 1957-58 movies — comparatively inexpensive and, if the star name is strong enough, insurance for some percentage of the audience.

Network television always has boasted it could do bold, exciting, expensive things that local stations couldn't afford to tackle.

Now, television soon will be showing old movies for a total of six prime-time evening hours of week. And showing old movies is something any local station can do and does—usually without quite as many commercial interruptions as the networks are able to line up.

Paper Suggests FBI Be Sent To Probe "Squealing" Out Of Security Council Meetings

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON (AP)—There's a chatterbox—or maybe a bunch of chatterboxes—in or close to President Kennedy's highly secret National Security Council.
The Washington Star suggests Kennedy use the FBI to find out who did the talking to the Saturday Evening Post about how the council advised the President on handling the Cuban crisis last October.
This would mean an investigation of those closest to the President. Meanwhile there's no assurance there won't be more blabbing after another secret meeting on another crisis.
"ALL SECRET"
The Post this week not only published an account of who said what at the October meeting and what measures were discussed but mentioned what was in an inter-office memorandum distributed in the super-secret Central Intelligence Agency.
Yet this week when Kennedy's press secretary, Pierre Salinger, was asked to comment on the story he said: "Proceedings of the NSC have been secret since its founding in 1947 and will continue to be."
The magazine story was written by a close friend of the President, Charles Bartlett, Washington correspondent of the Chattanooga Times, and Stewart Alsop, who reportedly has close connections in the administration.
CITES STEVENSON
By itself their account of what was said at the meeting would cause surprise. But even that was subordinated to the storm raised by the part they said was played by Adlai Stevenson, U.S. ambassador to the United Nations.
Their story said that even after a "consensus" of Kennedy's other advisers on the NSC said that a Cuban blockade should be the first step in a showdown with Russia, Stevenson "dissented" and even suggested making concessions to the Soviets by swapping Allied missile bases for Russia's Cuban missile bases.
This article was widely interpreted in Washington as a sign the Kennedy administration was putting the skids under Stevenson and wanted to bounce him.
READS STATEMENT
What followed, as the storm got bigger, is curious in itself: Salinger read to reporters a White House statement saying "Stevenson strongly supported the decision taken by the President on the quarantine..." White House officials said the statement had been prepared with the knowledge and advice of the President.
The statement at first glance seemed to support what Stevenson by this time had already said: that he had favored a blockade. But on closer examination it looks ambiguous.
It didn't contradict the Post story by saying Stevenson agreed with the "consensus" of the council that there should be a blockade. Kennedy made his decision after hearing the council. The White House statement said only that Stevenson agreed with the President's decision.
SCORES SCRIBES
Stevenson expanded Wednesday on the part he played in the council meeting.
On an NBC television show, Stevenson said the Bartlett-Alsop story was a "classic example of irresponsible journalism... untrue as to what I proposed and as to what I opposed."
He said he had "emphatically approved the blockade" and he denied advocating a swap of missile bases with Russia. Here in Washington there was a broad feeling Kennedy would have to give Stevenson personal and direct support if the ambassador were not to suffer great loss of prestige at the U.N.
Wednesday night the White House released a letter from Kennedy to Stevenson in which the President said he deeply regretted the "unfortunate stir" caused by the statements in the Bartlett-Alsop piece.
ADMIRE SERVICE
He added: "I think you know how greatly we have all admired your performance at the United Nations in general and during the Security Council discussions and private negotiations connected with the Cuba crisis in particular."
He assured Stevenson he wanted him to continue at the United Nations. But at no time has Kennedy criticized the story co-authored by his friend, Bartlett. Nor

TULANE CASE MAY ALTER LAW ON RACE ISSUE

NEW ORLEANS (AP)—An attorney claims that a federal judge's decision in the Tulane University desegregation case could provide a new legal basis to thwart desegregation of public institutions.
U.S. Dist. Judge Frank B. Ellis Jr. of New Orleans ruled Wednesday that Tulane, as a private institution, cannot be forced to admit Negroes.
Ellis—President Kennedy's civil defense director before being named to the federal bench—said there was not sufficient state involvement in the operation of Tulane to bring it within the scope of the 14th Amendment, the equal rights provision of the U.S. Constitution.
NEW DISCRIMINATION
John P. Nelson, attorney for the two Negro women who sought to enter Tulane, said the decision "opens the door to new and more subtle forms of racial discrimination in higher education."
Nelson, in oral arguments and briefs, contended that a state university was transferred to the Tulane Educational Fund and that no new university was created. Tulane attorneys argued that the state institution called the University of Louisiana ceased to exist in 1884 and that a new private university, namely Tulane, came into existence.
Ellis cleared the way for Tulane to accept Negroes voluntarily, ruling that the state act under which the Tulane Educational Fund took over the University of Louisiana was unconstitutional to the extent that it compels discrimination.

West German Truckers Needle Border Guards At Customs Stations

By RICHARD O'REGAN
HELMSTEDT, Germany (AP)—At the frontier to East Germany, a Communist border guard sat on a roll of barbed wire, his automatic rifle resting on his knees.

A ruddy West German truck driver pulled up on his way to Berlin, threw open his window and cracked: "Hey, sonny, doesn't it tickle?"

The East German policeman reddened. He stood up violently and thrust his rifle toward the West German driver.

"Ach," said the truck driver without lowering his voice. "We've got to teach them first what humor is. They haven't got any."

FREIGHT CHECK
The long-haul truck drivers between West Germany and West Berlin must stop at Communist controls to have their freight checked.

It is often a long process. Every day hundreds of truckers have to undergo tiresome Communist examination of their papers and cargoes. They often amuse themselves at the expense of the Communist police.

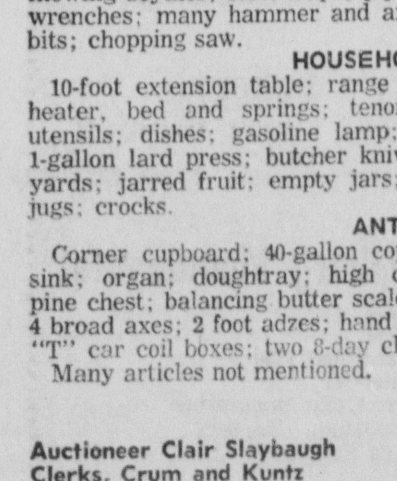

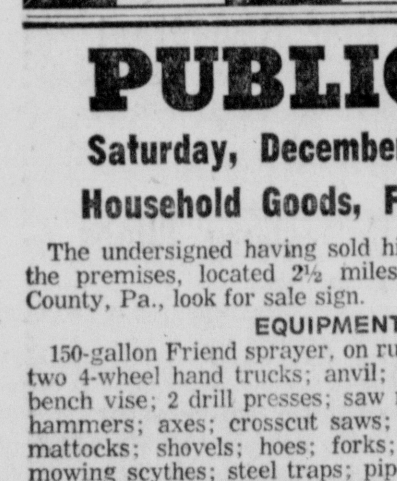

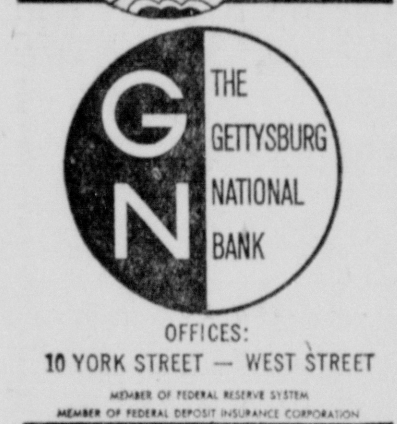

Another truck from West Germany reared up and the driver clambered out of his cab.

"Man look at that baby," he said as a girl in a gray Communist uniform approached. And then loudly: "Na ja, sister—pretty girls don't belong on customs ramps."

The girl ignored him, but a few minutes later she fled in anger. The truck driver's partner had awakened from his sleep, stepped to the ground and pinched her.

An irate Communist officer came out of the door through which the girl had disappeared. He wagged his finger in warning at the truckers.

TRUCK INSPECTION
Some yards away, another

group of West German truckers loitered around vehicles being inspected by the East German guards.

A young East German in glasses was sounding off: "In a capitalist country like West Germany, the workers always suffer. Our workers are luckier than you."

He glared at one truck bringing chocolate to West Berlin.

"We don't need Western influence, propaganda and chocolate from you," he said.

Snapped one of the West German drivers: "Be quiet. We don't want to listen to you. We have to stand here all the time having our papers checked and we don't have to listen to your political nonsense too."

THIRD JOINS GROUP

A third truck driver joined the attack on the young East German: "Your slogans about all you happy men—keep them for yourself. You tell me what you really think, and I'll see if I can't smuggle you back with us to the West."

The agitator stared at them. He looked startled and flushed as if his secret thoughts had been tapped and brought out to the open.

"But comrades..." he began. The truckers laughed in his face, went to their cabs and turned on their motors.

Sentence Of Whipping Is Stirring Fuss

By ANDREW MEISELS

DOVER, Del. (AP)—A 19-year-old was convicted of violating probation. The sentence included 20 lashes with a cat-o-nine-tails "inflicted publicly by strokes on the bare back well laid on."

The scene took place here Nov. 13, 1962. The sentence was legal. It was also feasible, since there are two public whipping posts in Delaware.

No date for the whipping of Franklin W. Cannon has been set, but—barring legal moves that may reach the U.S. Supreme Court—the date will be set and the sentence carried out.

STIRS CONTROVERSY

The case has stirred a controversy in state and nation. Civil liberties groups branded the punishment as barbaric. Sociologists called it archaic. Penologists expressed the opinion that whipping is useless in halting crime.

The controversy revolves around two questions: is whipping a brutal punishment, and does it help to deter crime?

One of the questions is as old as the United States, whose constitution—along with the constitution of Delaware—prohibits "cruel and unusual punishments."

CANADA USES LASH

Our grandfathers would have been surprised at the controversy. Until recent times, whipping was an accepted means of punishing criminals in nearly every country. In many nations, it still is.

England abolished corporal punishment in 1948. Canada still has it, and criminals there are regularly sentenced to the lash for a variety of offenses, from rape to armed burglary.

Even where whipping is legal, its use has diminished over the

past 50 years. If Cannon is flogged, it will be the first such sentence carried out in Delaware in more than a decade.

TO APPEAL CASE

Many believe the punishment will never be carried out. Cannon's attorneys have said they will fight the sentence to the U.S. Supreme Court if necessary, arguing that flogging is cruel and inhuman.

Delaware's Gov. Elbert N. Carvel says recent publicity about the whipping post has been "damaging to Delaware and to the whole United States."

There are 24 crimes in Delaware that are punishable by flogging, including wife-beating, larceny of a horse or mule and perjury. The minimum number of lashes is 5, the maximum 60, under a law adopted in 1717.

Does whipping help to deter crime? Judge Stewart Lynch, who imposed the sentence on Cannon along with a 3-year jail term when the youth broke probation for an original grand larceny conviction, believes it does.

"I know just one thing," he said. "In my 30 years of practice I found that criminals feared the lash more than serving time."

TENNIS KEEPS DOCTOR 'FIT'

By RICHARD F. WHALEN

PHILADELPHIA (AP)—At an age when most men are content to rest their weary bones in front of a TV set, Dr. Fred Hunlock—80 years old and still going strong—plays tennis three times a week, year 'round.

"It washes away the sins of living... cleans out the cobwebs," he says. "Exercise stimulates the organs. Perspiration

rides the body of acid and waste products. All this is washed off by the shower afterwards."

Dr. Hunlock, a physician in suburban Collingdale, has been playing tennis since the turn of the century.

In his youth, that is, in his 50's and 60's, he ran up a string of about two dozen area veterans championships. In 1924 he was the Delaware County singles titlist.

But for most people he recommends tennis be played moderately, regularly and all year 'round, if possible.

On whether old-timers should

worry about their hearts, he says, "You read of very few who have fatal heart attacks while playing."

On salt tablets to counteract the effects of the heat: "A useful aid."

On making a comeback: "Follows who try to come back after dropping out for six or seven years usually don't try to come back gracefully. They play the set as hard as when they left off

and are disappointed they can't do it. They are the few who are liable to have heart attacks."

Golf, he says, cannot compare with tennis as a conditioner.

"Tennis keeps you on your toes. Your mind stays keen and alert. In golf you get to take a long walk and swing a club a few times, but the whole idea is to swing it as seldom as possible."

what happened to the

funnies

Now there's a little man who knows what he wants! He wants the pretty funny papers. You might say, "He has a mind of his own..." That's correct, of course. Every child is endowed by his creator with a will and a mind; not developed, but it's there. Yet, how that child is trained from his earliest years, will mold his character, develop his mind and strengthen his will.

Children should have good example, then. And the best example that parents can give is to go to church. The Church is for you and your family. It is the hope of your children. It is the means of bringing God's bountiful blessings to all.

THE CHURCH FOR ALL • ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

NEGRO ADMITS KILLING GIRL

NEW YORK (AP)—A 15-year-old boy has been charged with homicide in the slaying of 9-year-old Lourdes Bass, who was raped on the roof of a Brooklyn housing project and then dropped 14 floors to her death.

Arrested Wednesday night was James Rooks, a Negro, also a resident of Farragut Houses, where the girl lived.

Police questioned 800 to 900 persons after the girl's body, clad only in shoes and socks, was found in a school crossing guard who told of seeing the youth "exposing himself" on a bus in the area three weeks ago.

After two hours of questioning, police said, Rooks was quoted as admitting he met the girl on the street as she was returning to school after lunch and that he forced her into an elevator and took her to the roof.

To Recommend Pa. Pay Local Taxes

STROUDSBURG, Pa. (AP)—A Joint State Government Commission task force on properties has ended its work with a recommendation the Commonwealth pay local real estate taxes on land it owns.

Assemblyman Van D. Vetter, task force chairman, said Wednesday that the tax proposal and other findings will be presented to the next session of the legislature. Among other recommendations, Vetter said, will be one that charitable institutions be required to pay the same taxes as religious institutions on land not specifically used for the purpose outlined in their charters.

MARINER 2 GETTING HOT

PASADENA, Calif. (AP)—Sun temperatures on the Venus-bound Mariner 2 spacecraft continue to rise. Scientists are keeping their fingers crossed.

A top temperature of 140 degrees was allowed for in preflight planning, but already Mariner has undergone heat of 160 degrees. Still higher temperatures are expected.

The spacecraft is scheduled to pass within 20,000 miles of Venus at 10 p.m. Dec. 14 and radio to earth information about the cloud-shrouded planet. All systems have functioned normally so far, says the California Institute of Technology's Jet Propulsion Laboratory.

BOYLE'S Grab Bag

By HAL BOYLE

NEW YORK (AP)—An inability to draw horses led cartoonist Herb Gardner to seek fame as a playwright—and he won on his very first try.

"I've always associated horses with the unemployment problem," said Herb, author of the current Broadway comedy hit, "A Thousand Clowns."

"Most of the times I left jobs it was because sooner or later the boss would ask me to draw a horse, and I couldn't. When I drew a horse it looked like a cross between a dog and radio city."

At 27, tall and curly-haired, Gardner himself looks like a cross between Thomas Wolfe and Orson Welles when they were that age.

YEARNED TO WRITE

Herb started yearning to be a writer at 13. He learned the rudiments of stagecraft in his youth by working as an orange juice salesman and hat checker in Times Square theaters, and recalls seeing one play 140 times.

There followed several frustrating years as a commercial artist, years in which he sculptured bunnies and walrus for a toy firm or drew endless panels in animated film cartoons.

Gardner was making a good living as creator of the Nebbish comic strip when he decided to chuck it all and gamble on his writing skill. Working in a cheap unheated

The National Aeronautics and Space Administration said today Mariner at 7 a.m. EST was 29,538,014 miles from the earth and 2,490,074 miles from Venus. The radio signal is good.

West Side apartment, he turned out "A Thousand Clowns" in 2½ years. It rang an immediate bell.

His experience has made Herb something of an apostle for the philosophy of chance-taking.

EYE DAYS OFF

"Too many people are working merely to buy time," he said. "They work just to have Saturday and Sunday off."

"I didn't want to go on buying time, because I was afraid I might find the time I bought I was merely using to buy more time."

"There is too much living for the time being. People should do now all the things they'll wish 30 years from now they'd done."

With the royalty money rolling in, Herb and Rita, his actress wife, are now busy furnishing an expensive six-room apartment on the East Side. But the acclaim that greeted his first play hasn't gone to his head.

SENTENCING OF COURT FIXERS IS DEFERRED

RALEIGH, N.C. (AP) — With the understanding they face stiff prison terms elsewhere, Judge Heman Clark deferred sentencing Thursday of Aaron Wagman and Joseph Green, two New Yorkers who pleaded guilty to college basketball fix charges.

The two who admitted their roles as contacts and pay-off men, turned state's evidence and offered crucial testimony against Dave Goldberg and Steve Lekometros, St. Louis men convicted of being financial backers in the scandal.

"It's very rare," said Judge Clark in Wake Superior Court, "that the prosecution is as successful in reaching as high up the ladder as to the people that furnish the money."

GIVEN 18 MONTHS

Solicitor Lester Chalmers told the judge the state would never have been able to bring Goldberg and Lekometros to trial without the testimony of Green and Wagman.

Judge Clark gave Paul Walker, another New Yorker who pleaded guilty to similar bribery charges, 18 months in prison.

Wagman already is under a five year sentence in Florida. He faces five to 10 years in New York. A warrant has been issued for him in Philadelphia. Green has pleaded guilty to charges in New York which could land him a 10 to 20 year term.

Goldberg, 46, and Lekometros, 39, each received five-year terms and stiff fines for supplying the money used to influence North Carolina State College players in eight games.
